## ABOUT US

As a company, Pienaar Bros North has been trading for more than 50 years and is today one of the largest distributors of personal protective equipment in Southern Africa. We have numerous branches and on-site stores strategically positioned to offer a broad range of products and services across South Africa, Botswana and Mozambique.

We strive for excellence in service, quality and price. By using our buying power and relationships with suppliers (local and international), we are able to negotiate the best quality and prices on personal protection equipment. With stock in excess of R120 million, and a staff complement of over 650 experienced, trained and motivated people, we can support the varied requirements of our approximately 3 000 account customers reliably and expeditiously.

Our business is aimed at providing as broad a range as possible of personal protective equipment and supplementary products to our customers by providing a range of PPE product that suits the pocket of our customers. This includes branded and affordable ranges.

In addition to having a wide product range, we've tried to position our branches as widely as possible to offer a single solution to those customers who have a broad geographical footprint. This being the case, our North footprint extends to 21 branches and a number of additional on-site stores, giving us coverage across Southern Africa. Whilst today a sizeable operation, the organization still has the heart of a family business, and is therefore flexible and intuitive to the needs of our customers. Our passionate and knowledgeable sales staff have a wealth of experience and are able to ensure the correct solution is found for any application. In addition, our supply partners offer expertise that is product and situation-specific so as to ensure we provide a complete protection solution.

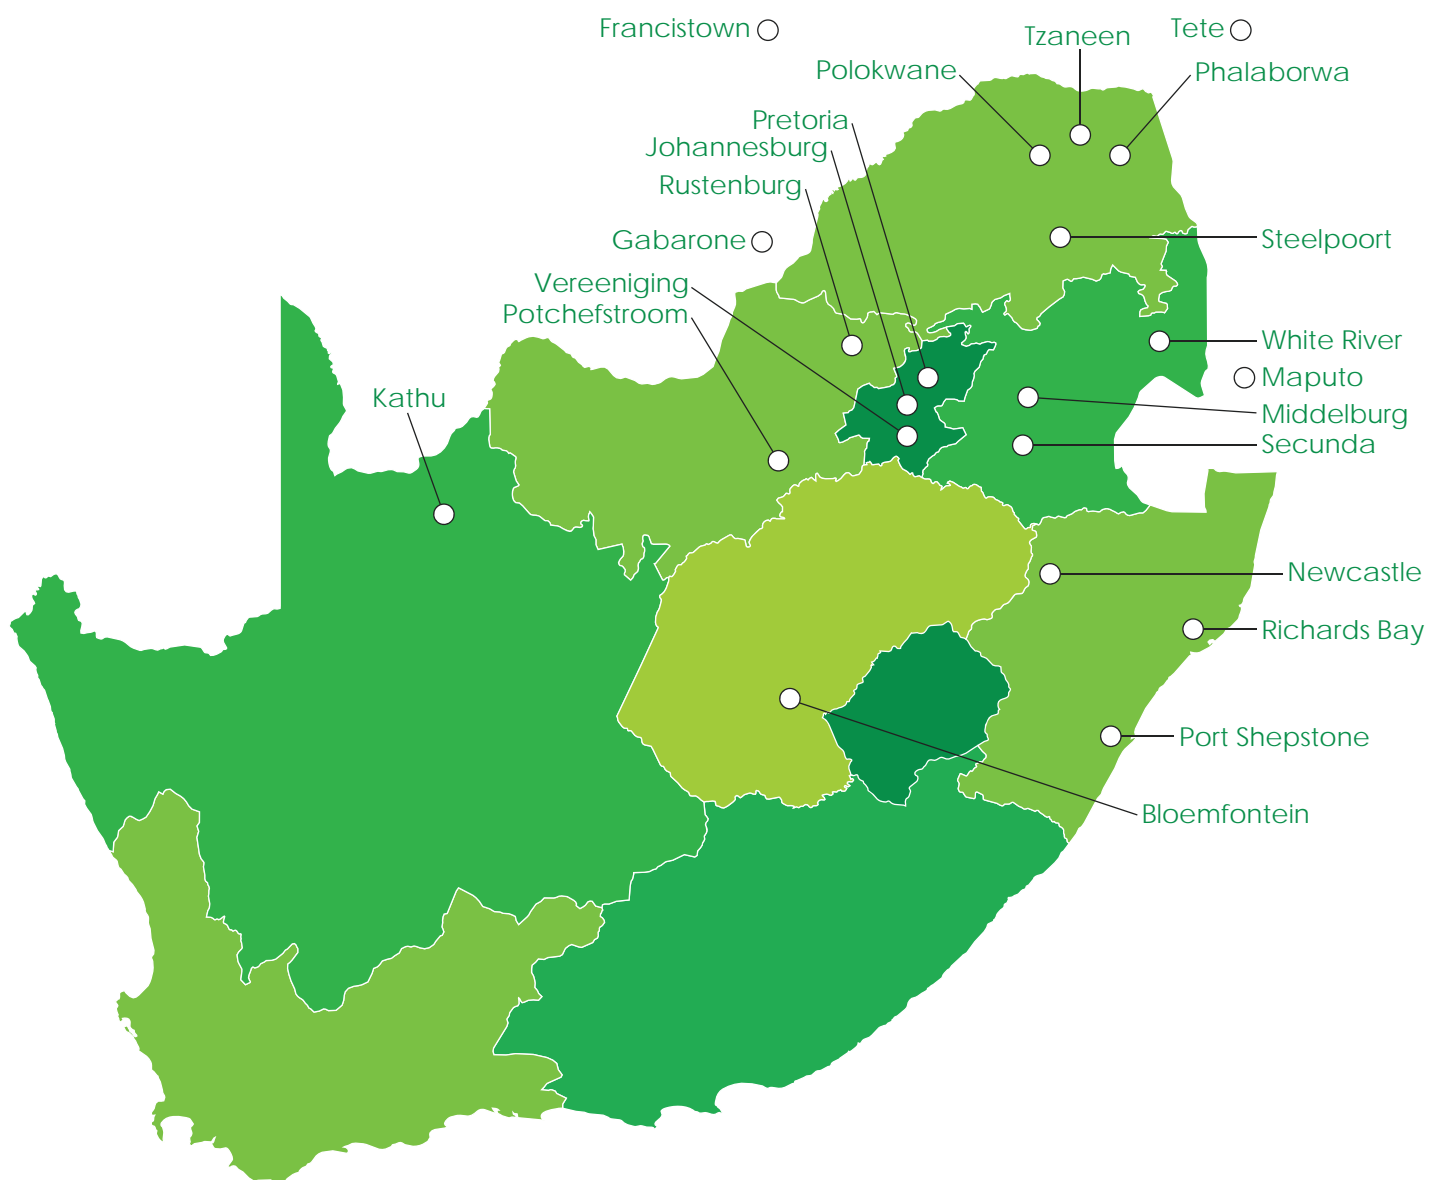

Our management team has consistently applied the **'Bringing safety to the workplace'** mantra in broadening our basket of quality products through an increasingly-growing and convenient Southern African branch network. Today, we are an expanding business and have a staff complement that is hardworking, honest, experienced, knowledgeable and dedicated to assisting our customers in providing solutions that are simple, necessary and practical. The success of the business has been built on the strength of our management and staff, and to this end, we continue to look for self-motivated people who will take on the Pienaar Bros' ethos of being there for our customers, and who will have our customers' best interests at heart.

# OUR FOOTPRINT

Pienaar Bros North has its head office in Wadeville, Johannesburg and has branches extending across the north of the country, and into Botswana and Mozambique. We also have a number of on-site stores that provide convenience to our clients, wherever they may be. With branches now in Gaborone and Francistown in Botswana, and in Maputo and Tete in Mozambique, we're perfectly positioned to support the requirements of our customers in South Africa, and across its borders. In time, we plan to increase our footprint further and to include other countries in the SADC region.

# SUPPLY PARTNERS

Our relationships with leading global and local suppliers has allowed us to provide a product range that is as wide as it is comprehensive. Our supply partners form an integral part of our success and are critical in providing additional value (such as training and technical support) to our customers.

These relationships have become stronger over time, and we collaborate as much as possible to find products that are functional and provide answers to real workplace problems. The expertise of our partners is essential in reinforcing a product range that has been built over many years and we are more than comfortable connecting them with our customers where need be, to ensure that the correct advice and solution is found and provided as and when needed. We continue to seek new products and services to add to our existing offering, which can be viewed in our catalogue. We continually work with existing suppliers to find products of reduced cost (with a view to making them more affordable) whilst maintaining quality. Our supply partners are partners in the true sense of the word and the depths of our relationships, forged over the years, provide a solid foundation for our future growth.

# METAMORPHOSIS

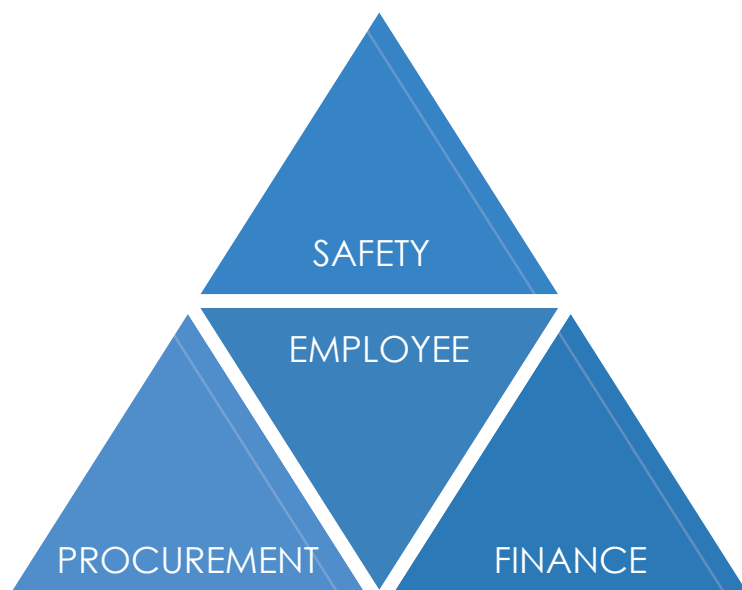

VENDOR MANAGEMENT SOFTWARE

At Pienaar Bros North, we have a unique vendor management software system called Metamorphosis. Developed in-house, it's a cutting-edge tool offering insight into a customer's usage and spend trends and is enhanced with a real-time reporting system and real-time business intelligence. It's linked to a network of suppliers with a just-in-time approach to stock maintenance. The software can be offered as part of a comprehensive proposal to manage sites and enhance cost-saving measures.

Metamorphosis also assists with managing the customer's Occupational Health and Safety program on an ongoing basis. Under a customised outsourcing model, we support and see to aspects such as stock control, inventory data and delivery (amongst other things) with a view to taking a load off our customers' shoulders and streamlining processes wherever possible. Customisable to a client's needs, Metamorphosis is all about ensuring cost-savings whenever and wherever possible. Typically, these cost-savings are achieved through reducing manual loading and human error and controlled invoicing.

The Metamorphosis vendor management system brings together procurement, finance, safety and one's employees to ensure savings across the board. A product of Pienaar Bros North, it's a tool that sets us apart. The usage of PPE per employee or department can be tracked in detail by the software ensuring control of the issuing of PPE for the onsite store to our customer.

Some of the companies using Metamorphosis:

# LOCAL MANUFACTURING

As a local company with deep roots in South Africa, and a belief that there is a positive future, our management has committed to manufacturing some key PPE products locally. This commitment is a re-affirmation of the country and its people, and our ability to produce technical products, as well as provide much sought after employment. Our team of experienced management and dedicated staff manufacture a variety of injection moulded products that include SABS approved hard hats and caps, welding helmets, face shields and glove clips, at our premises in Johannesburg. We are confident that the quality of the products are world class, which is confirmed by the support of these goods by many leading companies who continue to use and trust these products for their protection.

## OUR GREEN HEARTS

By protecting their eyes, ears, arms, hands, heads and faces, we protect the ability of these people to provide for themselves, their families and their futures. Nothing could be more important. What is also important is the protection of the environment: an environment that is under threat on various fronts.

From extreme weather to changes in plant life and animal species on the brink of extinction, the environment in which we live, play, work and breathe has never faced as many challenges as it does today. We cannot ignore, or walk away from a responsibility that ensures its survival - for our children, and our children's children.

There is a need to act responsibly and pro-actively to ensure that we protect our heritage. It's a daunting task, but is one that we're committed to. In a similar vein, we take our re-cycling initiative seriously: one that sees us taking worn product off dumps to be re-worked and re-used.

Recycling not only removes waste, but in the re-use process and reduces energy consumption. As recent years have become the hottest on record, it has become critical to consider the consequences of our actions. Taking action is a reflection of the hearts and minds of our people, and of our commitment to protecting a future we all share.

Safety Gear

## Safety Workwear Manufacturers

MB Workwear is owned and managed by Pienaar Bros North. For over 60 years we have been dedicated to manufacturing quality protective clothing which enables workers to perform their jobs safely and efficiently.

We produce a wide variety of safety workwear to service a number of industries, focussing primarily on the mining, foundry, steel, OGP (oil, gas and petroleum), chemical and utilities industries. Our meticulous manufacturing process, experience, safety-centric attitude and our commitment to quality has helped us establish long lasting relationships in a number of industry communities throughout the United Kingdom, Canada and Africa.

Our dedicated approach to the consistent innovation of garment solutions has also allowed us to develop a number of specialised garments such as the original flame retardant workwear range, Zeroflame®, Nomex® and our new Protal® Electric Arc protective range. We also manufacture the Vinex® and Alumax ranges, a collection of aluminium splash proof garments which are used by

the world's largest mining company, BHP Billiton. The quality of our garments has been recognised throughout the world through various accreditations. We are an ISO 9001 certified company with SABS approved status. In addition, our garments meet Canadian and European safety standards and any new advancement is comprehensively tested before release.

Committed to safety and innovation, we strive to develop garments which satisfy the needs of individuals who work in dangerous environments and are constantly pushing the boundaries to provide superior safetywear solutions for all industries.

Brands proudly brought to you by MB Workwear

### CONTI-SUIT ZEROFLAME ACID

THE RESPIRATORY

### POWERED AIR PURIFICATION RESPIRATORS (PAPR)

#### M-300 SERIES HEADTOP

Lightweight, compact and well-balanced, these helmets offer integrated protection from a range of respiratory, head, eye, face and hearing hazards.

**Sold:** Individually

M-307  
**3M**

#### S-SERIES HEADCOVERS

This system provides comfortable, efficient powered air protection. It uses interchangeable filters, cartridges and canisters to protect the wearer against gases, vapours and/or particulates.

**Sold:** Individually

S-133  
**3M**

#### S-SERIES HOOD WITH FACE SEAL

This system provides comfortable, efficient powered air protection. It uses interchangeable filters, cartridges and canisters to protect the wearer against gases, vapours and/or particulates.

**Sold:** Individually

S-433  
S-533  
**3M**

#### VERSAFLO

Provides protection against particles, gases or vapours - or a combination of these - depending on the type of filter used. The turbo has selectable multiple airflows through a simple, intuitive and easy-to-use two-button operation whilst the particulate filter and battery status indicators provide constant updates during use. The low profile design keeps weight close to the back, resulting in greater comfort.

**Sold:** Individually

TR300+  
TR600  
**3M**

#### ADFLO POWERED AIR RESPIRATOR

Designed to help keep welders fresher, cleaner and more comfortable, the 3M™ Adflo™ Powered Air Purifying Respirator (PAPR) System helps deliver fresh, filtered air around the face and head. Its slim profile, lightweight design and long-lasting battery provide comfort and protection all shift long.

**Sold:** Individually

837731  
**3M**

#### 6800 FULL FACE PIECE

This face piece can be used with 6000 series cartridges, filters, adapters and retainers. Can also be used as a dual airline supplied air respirator system.

**Sold:** Individually or 4 per case

6700 (Small)  
6800 (Medium)  
6900 (Large)  
**3M**

### 6500 SERIES HALF FACE MASK

The 6500 series provides extended product life due to resilient silicone material. Guarantees comfort and stability through a soft but firm silicone face seal. Also available with a Quick latch drop-down mechanism for easy "on and off" as one moves in and out of contaminated areas and 3M cool flow valves unique design to allow easier breathing.

**Sold:** Individually or 10 per case

6501QL (Small)  
6502QL (Medium)  
6503QL (Large)

### 6000 SERIES HALF FACE MASK

This face piece can be used with 6000 series cartridges, filters, adapters and retainers. Can also be used as a dual airline supplied air respirator system.

**Sold:** Individually or 8 per case

6100 (Small)  
6200 (Medium)  
6300 (Large)

### 7500 SERIES REUSABLE HALF MASKS

The Silicone face piece can be used with 6000 series cartridges, filters, adaptors and retainers. Note: This face piece can also be used as a dual airline-supplied air respirator system.

**Sold:** Individually or 10 per case

M7503

### SECURE CLICK

Silicone face-seal with secure "click" connection system for easy filter installation; speaking diaphragm for clearer communication; one-touch negative-pressure seal check for fast assurance. Quad-flow cartridge system (four airflow paths) improves breathability, while the low-profile design and flexible nose-bridge enhance compatibility with eyewear and shields. Use with 3M Secure Click D8000 series cartridges and filters to protect against particulates, gases, and vapours in industrial settings.

**Sold:** Individually or 10 per case

HF-800

### 4000 SERIES REUSABLE RESPIRATOR

Type: FFA1P1. Maximum usage. Organic vapours up to 10 x OEL. Particulates up to 4 x OEL.

**Suggested applications:** spray paint, pesticides.

**Sold:** Individually or 10 per case

M4251

### AIR MONITORING SYSTEMS

The economical, accurate way to monitor one's working environment. 3M Air Monitors are simple and effective devices that collect certain air-borne contaminants using the scientific principle of diffusion. They meet or exceed 25% accuracy and a 95% confidence level for many workplace contaminants.

**Sold:** Individually

M3500 (Organic Vapour)  
M3551 (Ethylene Oxide)  
M3721 (Formaldehyde)

# The Importance of Fit

Respiratory protection is only effective if it is correctly selected, fitted and worn throughout the time when the wearer is exposed to respiratory contaminants. Before assigning any respirator to be worn in a contaminated area, it is recommended to perform a face fit check before entering the workplace. These fitting instructions must be followed each time the respirator is worn.

## DONNING YOUR 6500 AND 6500QL REUSABLE HALF MASKS

1

Adjust head cradle size as needed to fit comfortably on head. Place the mask over the mouth and nose with one hand, then pull the head harness over the crown of the head with the other hand.

2

Grasp the bottom straps, place them at the back of the neck and hook them together.

3

Pull the ends of the straps to adjust the tightness, beginning with the adjustment points on the head cradle and then moving to the adjustment points at the back of the neck. Do not over-tighten. Strap tension may be decreased by pushing out on back side of buckles.

## USING THE 6500QL QUICK LATCH DROP DOWN FEATURE

**IMPORTANT NOTICE:** After initial donning of the 6500QL Quick Latch Half Mask, subsequent donning can be done with quick latch initially in open or closed position. Always follow the User Instructions.

**QUICK LATCH CLOSED**

**PULL UP ON LATCH**

**QUICK LATCH OPEN**

**PULL DOWN ON LATCH**

**TO OPEN QUICK LATCH:** Grasp the latch at chin level and pull up. **TO CLOSE QUICK LATCH:** Grasp the facepiece with your thumb on the bottom of the facepiece and your first two fingers on top of the latch. Place the facepiece over your nose and mouth while pushing down on the latch.

## USER FIT CHECKS: CHECK THE SEAL EACH TIME YOU DON THE RESPIRATOR.

**POSITIVE PRESSURE USER SEAL CHECK**

Place the palm of your hand over the exhalation valve cover and exhale gently. The facepiece should bulge slightly. If air leaks between the face and the facepiece, reposition the respirator and/or adjust the straps for a more secure seal.

**NEGATIVE PRESSURE USER SEAL CHECK USING 3M™ 2000 SERIES FILTERS**

Place your thumbs on the center portion of the filters, restricting airflow through the filters, and inhale gently. The facepiece should collapse slightly closer to your face. If air leaks between the face and the facepiece, reposition the respirator and/or adjust the straps for a more secure seal.

**NEGATIVE PRESSURE USER SEAL CHECK USING 3M™ 6000 SERIES GAS AND VAPOUR FILTERS**

Place the palms of your hands over the cartridges and inhale gently. The facepiece should collapse slightly closer to your face. If air leaks between the face and the facepiece, reposition the respirator and/or adjust the straps for a more secure seal.

**NEGATIVE PRESSURE USER SEAL CHECK USING 3M™ 6000 SERIES PARTICULATE FILTERS**

Squeeze filter covers with hands toward facepiece to restrict airflow. Be careful not to disturb the position of the respirator. Inhale gently. The facepiece should collapse slightly. If air leaks between the face and the facepiece, reposition it and adjust the straps for a tighter seal.

If you cannot achieve a proper seal, do not enter a contaminated area. See your supervisor.

### 6051 CARTRIDGE

Type: A1. Use for protection against organic vapours. Used in industries such as vehicle and aircraft manufacture where conventional paint is used. Also suitable for use in adhesive manufacture.

**Sold:** Per pair **or** 8 per box **or** 64 per case  
*Available in Secure click variation D8051*

M6051  
**3M**

### 6054 CARTRIDGE

Type: K1. Use for protection against ammonia and methylamine up to 10 x OEL.

**Sold:** Per pair **or** 8 per box **or** 64 per case

M6054  
**3M**

### 6055 CARTRIDGE

These organic gas and vapour A2 filters have all the features you would find in standard 3M Gas and Vapour filters.

**Sold:** Per pair **or** 8 per box **or** 64 per case  
*Available in Secure click variation D8055*

M6055  
**3M**

### 6057 CARTRIDGE

Type: ABE 1. Use for protection against organic vapours up to 10 x OEL.

**A** - Organic, **B** - Inorganic, **E** - Acid Gases

**Sold:** Per pair **or** 8 per box **or** 64 per case  
*Available in Secure click variation D8057*

M6057  
**3M**

### 6059 CARTRIDGE

Type: ABEK1. Use for protection against ammonia, acid gases, organic and inorganic, up to 20 x WEL.

**Sold:** Per pair **or** 8 per box **or** 64 per case  
*Available in Secure click variation D8059*

M6059  
**3M**

### 6075 CARTRIDGE

Type: A1 + formaldehyde. Use for protection against 10ppm formaldehyde, and organic gases up to 20 x WEL.

**Sold:** Per pair **or** 8 per box **or** 64 per case

M6075  
**3M**

### 6038 ENCAPSULATED CARTRIDGE

Particulate Filters 6038 protect against solids and liquid particles P3R, HF up to 10 x TLV additionally against organic vapour and acid gases below OEL in a stable plastic cage for rough applications. Suitable for 3M 6000 and 3M 7000 Series Half Face and Full-Face Masks.

**Sold:** Per pair **or** 20 per box **or** 80 per case  
*Available in Secure click variation D9038*

M6038  
**3M**

### 501 RETAINER

The 3M Filter Retainer 501, Respiratory Protection System Component holds 3M Particulate Filters 5N11 and 5P71/07194 (AAD) in place on top of 3M Respirators 5000 Series, 3M Cartridges 6000 Series and 3M Filter Adapter 603.  
**Sold:** Per pair **or** 20 per box **or** 100 per case

M501  
**3M**

### 502 FILTER ADAPTER

The 3M Filter Adapter 502, Respiratory Protection System Component attaches 3M Particulate Filters 2000/2200 Series and 7093/7093C to the 3M Respirators 5000 Series and 3M Cartridges 6000 Series.  
**Sold:** Per pair **or** 20 per box **or** 100 per case

M502  
**3M**

### 2128 FILTER

Type: P2. Use for protection against particulates up to 10 x OEL & nuisance level organic vapour and acid gas relief.  
**Sold:** Per pair **or** 20 per box **or** 80 per case  
*Available in Secure click variation D3128*

M2128  
**3M**

### 2135 FILTER

Type: P3. Use for grinding, sanding, asbestos, wood-working, foundries & mining up to 20 x OEL.  
**Sold:** Per pair **or** 20 per box **or** 80 per case  
*Available in Secure click variation D3135*

M2135  
**3M**

### 2138 FILTER

Type: P3. Use for protection against particulates up to 20 x OEL & nuisance level organic vapour relief.  
**Sold:** Per pair **or** 20 per box **or** 80 per case  
*Available in Secure click variation D3138*

M2138  
**3M**

### 5935 FILTER

Type: P3. Use for grinding, sanding, asbestos, wood-working, foundries, mining & as a pre-filter in gas and vapour combinations.  
**Sold:** 20 per box **or** 80 per case  
*Available in Secure click variation D7935*

M5935  
**3M**

### 6096 ENCAPSULATED CARTRIDGE

Type: A1HgP3. Use for protection against mercury, vapour & particulates up to 10 x OEL.  
**Sold:** Per pair **or** 8 per box **or** 64 per case

M6096  
**3M**

**9928**

**Type:** FFP2 RD. Maximum usage level: 10 x TLV where ozone is present. **Suggested applications:** welding, brazing, soldering, torch-cutting, metal-pouring, grinding, sanding, sweeping, bagging plus other dusty or hot foundry or petrochemical operations. Contains soft inner face seal. Reusable in certain conditions.

**Sold:** 10 per box **or** 80 per case

**M9928**  
**3M**

**AURA 9332+**

**Type:** FFP3. The Maximum use level is 12 x TLV. **Suggested applications:** Grinding, sanding, asbestos, bagging, wood-working and other dusty operations.

**Sold:** 10 per box **or** 120 per case

**M9332**  
**3M**

**1860**

A healthcare particulate respirator. Adjustable nose clip, custom & secure seal, cushioning nose foam, braided head straps. Proprietary filter media, designed for ease of breathing. Fluid-resistant.

**Sold:** 10 per box **or** 120 per case

**M1860 (Medium)**  
**M1860S (Small)**  
**3M**

**8835**

**Type:** FFP3. Maximum usage level: Up to 50 X TLV, adjustable braided headbands and soft inner face-seal ring. **Suggested applications:** Construction, Pharmaceuticals, Welding and soldering, Chemical Processing.

**Sold:** 5 per box **or** 50 per case

**M8835**  
**3M**

**9925**

**Type:** FFP2. Maximum usage level: 12 x TLV where ozone is present. **Suggested applications:** welding, brazing, soldering, torch-cutting, metal pouring, grinding, sanding, sweeping, bagging & other dusty and hot operations.

**Sold:** 10 per box **or** 80 per case

**M9925**  
**3M**

**8822**

**Type:** FFP2. Maximum usage level: 12 x TLV. **Suggested applications:** grinding, sanding, asbestos, bagging, wood-cutting, foundries, mining & other dusty operations.

**Sold:** 10 per box **or** 240 per case

**M8822**

### 3 PLY SURGICAL MASK

Fluid Resistant, Moulded surgical masks.

**Sold:** 50 per box

**MASKSURG**

### PB FFP2 MASK

Certified FFP2 Disposable face mask, ARMSCOR Laboratory Tested to EN149: 2001 Standard, Manufactured to International Standards, High performance filtering media with low breathing resistance, Exceptional User Comfort and Fit.

**Sold:** 20 per box

**PBMASKFFP2** (Unvalved)

**PBMASKFFP2V** (Valved)

### SINICA FFP2 MASK EARLOOP

The mask provides protection against particles, as well as against solid and liquid aerosol. Easy to fit to the wearer due to the adjustable nose piece. The ear loop is latex free and very soft for the wearer's ears.

**Sold:** (Valved) 20 per box or (Unvalved) 25 per box

**RESPFG/HR-10** (Unvalved)

**RESPFG/HR-11V** (Valved)

### SINICA FFP2 MASK HEADBAND

The mask provides protection against particles, as well as against solid and liquid aerosol. Easy to fit to the wearer due to the adjustable nose piece. The ear loop is latex free and very soft for the wearer's ears.

**Sold:** (Valved) 20 per box or (Unvalved) 25 per box

**RESPFG/HR-20** (Unvalved)

**RESPFG/HR-21** (Valved)

### SILV-AIR FFP2

The uvex silv-Air 2200 series provides reliable FFP2 protection against harmful dusts and aerosols in a durable, cup-shaped design. Both models feature soft edges, a continuous headband, flexible nose clip, and a soft sealing lip for secure comfort, while meeting the dolomite dust test (D) for performance in dusty environments. The 2200 is the standard unvalved version, while the 2210 includes an exhalation valve to reduce breathing resistance and heat build-up for added comfort during longer wear

**Sold:** (Unvalved) 20 per box **or** 240 per case  
(Valved) 15 per box **or** 180 per case

**8762200** (Unvalved)

**8762210** (Valved)

**uvex**

### SILV-AIR CARBON FFP3

High-performance FFP3 respirator with cup-shaped design, soft sealing lip, and 4-point headband for a secure fit. The exhalation valve reduces breathing resistance and heat, while dolomite dust test (D) approval ensures reliability in dusty conditions. Suitable for metalworking, welding, medical waste, and protection against viruses, bacteria, and nanoparticles.

**Sold:** 15 per box **or** 180 per case

**8762310**

**uvex**

### RHINO FFP2 FLAT FOLD

The respirator mask is for particulate filtration and is disposable. Lightweight, effective and comfortable. Great for grinding, sanding or welding.

**Sold:** Unvalved 20 per box **or** 400 per case  
Valved 15 per box **or** 300 per case

DMGRN1200FFP2RH  
DMGRN1201FFP2VRH

### RHINO FFP2 CUP SHAPE

This respirator mask is FFP2 and is for particulate filtration and is disposable. **Applications:** Grinding, sanding, foundries and other dusty operations.

**Sold:** 20 per box **or** 400 per case  
Valved 15 per box **or** 300 per case

DMGRN6200FFP2RH  
DMGRN6201FFP2VRH

### RHINO FFP3 WELDING

This respirator mask is FFP3 and is for particulate filtration and is disposable. Adjustable, Maintenance Free, Ergonomically Designed, Designed for a Clear Field of Vision, Made in South Africa.

**Sold:** 5 per box **or** 150 per case

DMGRN9603FFP3RH

### U-MASK FFP2 FLAT FOLD

Proudly designed and manufactured in South Africa, this Premium U-MASK™ FFP2-grade respirator delivers ≥98% filtration efficiency and low breathing resistance with an exhalation valve option. Fully compliant with global safety standards and trusted across mining, construction, petrochemical, and other high-risk sectors.

**Sold:** 20 per box **or** 400 per case  
Valved 15 per box **or** 300 per case

UMASK9200 (Unvalved)  
UMASK9201 (Valved)

### U-MASK FFP3 FLAT FOLD VALVED

Designed and manufactured in South Africa, the U-MASK™ 9300 offers FFP3-grade protection with at least 99% filtration efficiency. Featuring a built-in exhalation valve for reduced heat and moisture, it's ideal for mining, foundries, pharmaceuticals, and other high-risk industrial settings.

**Sold:** 15 per box **or** 300 per case

UMASK9300

### U-MASK FFP2 CUP SHAPE

Locally engineered for hot, humid environments, the U-MASK™ 3002 delivers FFP2-grade protection with ≥98% filtration and an exhalation valve option for enhanced comfort. Suitable and trusted across mining, construction, petrochemical, and other high-risk sectors.

**Sold:** 15 per box **or** 300 per case  
Valved 10 per box **or** 200 per case

UMASK3001 (Unvalved)  
UMASK3002 (Valved)

### X-PLORE 1700 SERIES

"Breathe cool, stay safe: Dräger X-plore® 1700 makes breathing easy and comfortable. The CoolSAFE™ filter material ideally combines low breathing resistance and high filter performance in one mask. And the CoolMAX™ valve efficiently releases humid and warm exhaled air to the outside. This makes breathing particularly easy and keeps you cool under the mask."

**Sold:** 15 per box (Valved) **or** 18 boxes per case (Valved) **or** 20 per box (Non-valved) **or** 18 boxes per case (Non-valved)

**3956034** (FFP2)

**3956163** (Odour/Carbon)  
**3956160** (FFP3)

### X-PLORE 1900 SERIES

High-performance single-use mask with CoolSAFE® filter material for effective dust and particle protection with low breathing resistance. Designed with SmartFOLD® technology for stability, VarioFLEX® straps for comfort, and an optional CoolMAX® valve to reduce heat and moisture. Available in valved or unvalved.

**Sizes:** Small or Medium/Large

**Sold:** 10 per box (Valved) **or** 200 boxes per case (Valved) **or** 20 per box (Non-valved) **or** 400 boxes per case (Non-valved)

**395192\*** (FFP2)  
**395193\*** (FFP3)

**Dräger**

### X-PLORE 3500

"Reusable, premium quality half mask with a twin filter bayonet Connection. Mask made from hypoallergenic DrägerFlex material for long-term, demanding jobs. Very comfortable head harness With ""Drop Down"" neck strap. Each mask is supplied with a Re-sealable storage bag. Colour of mask body: black"

**Sold:** Individually

**R55351** (Small)  
**R55350** (Medium)  
**R55352** (Large)

**Dräger**

### X-PLORE 8000

"Challenging workplace conditions demand reliable solutions. The Dräger X-plore® 8000 offers a new level of intuitive handling combined with intelligent electronics that provide the high degree of safety your people need to focus on the task at hand."

*\*Consult for configuration needed*

**R59565**  
**Dräger**

### X-PLORE 6300

Durable full-face respirator with EPDM body and 180° scratch-resistant PMMA visor for clear vision. Features a 5-point harness for easy donning, fog-free ventilation, and a standard Rd40 connector for filter compatibility. Certified to EN 136 Cl.2, NIOSH, and AS/NZS standards

**Sold:** Individually

**R55800**  
**Dräger**

### X-PLORE 5500

Durable full-face respirator with 180° wide visor in polycarbonate or Triplex glass for clear vision. The EPDM mask body and 5-point harness ensure comfort and a secure fit, while dual bayonet connectors support the Dräger X-plore® filter range. Features an efficient ventilation system for a fog-free lens. Certified to EN136 Cl.2 and NIOSH approved

**Sold:** Individually

**R55270**  
**Dräger**

### FULL FACE MASK 3S

The full face mask 3S "Basic Plus" is designed for use with filters (filter canisters with standard thread connector), compressed air line breathing and turbo filtering devices. The connector has a standard thread according to EN 148.1. The 5 point harness permits quick donning and removal of the mask without previous adjustments.

**Sold:** Individually

RESPFULL

### A2P3 Canister

The combination of particle filter type **P3** and activated carbon gas filter of Class **A2** for the filtering of organic vapours, gases (solvents) and particles. Weight approximately - 300g.

**Sold:** Per pair

CANA2P3

### A2B2E2K1P3 Canister

The combination of particle filter type **P3** and activated carbon gas filter of Class **A2B2E2-K1** for the filtering of combined organic/ inorganic/ acidic and ammonia compounds and particles. Weight approximately - 400g.

**Sold:** Per pair

ABEKCAN

### B2P3 Canister

The combination of particle filter type **P3** and impregnated carbon gas filter of Class **B2** for the filtering of inorganic gases and vapours (Chlorine (CL<sub>2</sub>)), Hydrogen Sulphide (H<sub>2</sub>S), Hydrogen Cyanide (HCN) and particles. Weight approximately - 300g.

**Sold:** Per pair

CARTB2P3

### K2P3 Canister

The combination of particle filter type **P3** and impregnated carbon gas filter of Class **K2** for the filtering of ammonia (NH<sub>3</sub>) and vapours. Weight approximately - 300g.

**Sold:** Per pair

# HEARING

### OPTIME CAP-MOUNT EARMUFFS

This cap-mount earmuff fits onto most hard hats with a noise level up to 101 dBA. The recommended industry is construction, mining, transportation.

**SNR:** 23dB

**Sold:** Individually **or** 10 per box

**PH9P3E**  
**3M**

### OPTIME EARMUFFS

This earmuff has been developed for demanding noisy environments and muffles even extremely low frequencies to a maximum degree. Suitable for substantial industrial noise or construction machinery.

**SNR:** 25dB

**Sold:** Individually **or** 10 per box

**H9A**  
**3M**

### PELTOR CAP-MOUNT EARMUFFS

For noise levels up to 105 dBA, these cap attached with double-shell technology to provide effective hearing protection - Proprietary Twin-Cup(TM) design has soft, foam-filled earmuffs. Easy cap-mount design. Earcup pivot points that tilt for optimum comfort and efficiency. Liquid/foam filled earmuff cushions. Color-coding to help match attenuation needs.

**SNR:** 27dB

**Sold:** Individually **or** 10 per box

**H10P3E**  
**3M**

### PELTOR EARMUFFS

This Peltor over-the-head earmuff provides effective hearing protection up to 105dBA. The Double-shell technology boosts its noise blocking ability. This durable stainless steel. Headband resists bending and warping. Highest available SNR in attachment style earmuff.

**SNR:** 30dB

**Sold:** Individually **or** 10 per box

**H10A**  
**3M**

### J-MUFF

Designed with comfort in mind, lightweight and a robust design. Self-adjusting ABS cups and with soft foam cushions for all day comfort. It is suitable for light industrial duty and outdoor construction. This can be used under a hard hat or around the neck. **Applications:** Machining, grinding, Steel cutting or Woodwork.

**SNR:** 24dB

**Sold:** Individually **or** 48 per case

**JM-B**

### EARMUFFS

The dielectric QM24+® is an ultra-lightweight, three-position earmuff designed for extended wear at a valued price. Features an adjustable crown strap for a secure fit. Soft foam cushions are easy to clean.

# HEAD AND FACE

## Locally Manufactured Safety Caps

Working in tough conditions require comfort and dexterity out of safety equipment which is why we supply a suspension liner with superior comfort, perfect fit and an adjustable size with every Rhino Safety Cap.

### Rhino 909C Safety Cap

909C

#### Ratchet Liner

These 4 point liners are built to adjust to any shape head allowing for superior comfort over long periods of time. The ratchet allows for single-handed tightening and loosening of the safety cap to preference. A brushed nylon sweatband provides a breathable seal around the forehead eliminating pressure headaches.

#### Accessories

Accessory slots found on either side of cap for clip in faceshields and mountable earmuffs. Integrated lamp bracket on the front of the cap for miners lamps with a rear-mounted cable clip to house battery cable. Rain gutter to direct water or chemicals away from the neck and face. Chin strap hooks for easy mounting of straps.

# RHINO

Available Colours:

### Athol 806C Safety Cap

806C

#### Pin Lock Liner

These 6 point pin lock safety caps are ideal for entry level use. The pin lock can be set multiple times allowing for easy adjusting over time without diminishing quality. A brushed nylon sweatband provides a breathable seal around the forehead eliminating pressure headaches.

#### Accessories

Accessory slots found on either side of cap for clip in faceshields and mountable earmuffs. Integrated lamp bracket on the front of the cap for miners lamps with a rear-mounted cable clip to house battery cable. Rain gutter to direct water or chemicals away from the neck and face. Chin strap hooks for easy mounting of straps.

# ATHOL

Available Colours:

**806 HLB MINERS HARD HAT**

Wide brim 6 point HDPE miners hat with intergrated cap lamp bracket and cable clip holder. Available in Double Crown. SABS approved.

REFILL KIT #7

### MINING REGULATION KIT

- 1 x Cleaning solution 100ml
  - 1 x Gauze swabs 100s
  - 1 x Sterile gauze 5s
  - 12 x triangular bandages
  - 6 x 75mm x 4.5 bandages
  - 6 x 100mm x 4.5 bandages
  - 16 x Interlocking green splints
  - 5 x Cotton wool 5g
  - 1 x Forceps
  - 4 x pairs latex gloves
  - 1 x Scissors
  - 1 x Safety pins 12s
  - 1 x Plaster roll 25mm x 3m
  - 1 x Anti-allergic tape 25mm x 3m
  - 1 x Dressing strips
  - 2 x CPR mouth pieces
  - 1 x Cervical collar set
- Size:** 61.5 x 38 x 13cm

F/AIDMIN

### MOTORIST FIRST AID KIT

- 1 x Eye pad
- 1 x Cleansing fluid
- 2 x Gauze swabs 5s
- 1 x Plastic forceps
- 1 x Scissors
- 1 x Safety pins 12s
- 2 x Triangular bandages
- 4 x Conforming bandages 75mm x 5.4m
- 4 x Conforming bandages 100mm x 4.5m
- 1 x Plaster roll 3m x25 mm
- 2 x Pairs latex gloves
- 4 x First aid dressing No. 3
- 4 x First aid dressing No. 5
- 1 x Plasters assorted 5s
- 2 x CPR mouth pieces
- 2 x Set green plastic splints

MOTORAID

# CHEMICAL RESISTANCE CHART (GLOVES)

**NOTE:** This chemical resistant chart is presented as a guide only. This does not consider permeability of glove, chemical combinations, temperature, length of time that glove is in contact with the chemical and thickness of glove. These factors will alter or affect the performance of glove. Recommend actual on-the-job testing of glove.

Excellent	Good	Fair	Not Recommended
-----------	------	------	-----------------

Chemicals	Rubber Latex	Neoprene	Nitrile	PVC
Acetaldehyde	E	E	F	N
Acetic Acid (Conc)	E	E	G	F
Acetone	E	G	N	N
Ammonium Hydroxide (Conc.)	E	E	E	E
Amyl Acetate	N	N	F	F
Aniline	G	G	F	N
Animal Fats	F	E	E	N
Asphalt	N	F	E	N
Benzyl Alcohol	F	E	E	E
Bleach	E	E	E	E
Boric Acid	E	E	E	E
Brake Fluid	F	E	E	F
Butyl Acetate	N	N	F	F
Carbon Tetrachloride	N	F	G	F
Chloroacetone	E	E	N	N
Chromic Acid 50%	N	N	F	E
Citric Acid 10%	E	E	E	E
Creosote	F	E	E	E
Cutting Oil	N	E	E	E
Cyclohexane	N	F	E	N
Diesel Fuel	N	F	E	N
Diethanolamine	E	E	E	E
Diethyl Ether	F	E	E	F
Diethyl Phthalate (DOP)	F	G	G	N
Ethyl Acetate	G	F	N	N
Ethyl Alcohol (Ethanol)	E	E	E	F
Ethylene Glycol (Anti Freeze)	E	E	E	E
Fertilizers	E	E	E	E
Fish, Shell Fish	F	E	E	F
Fluorides	E	E	E	E
Formaldehyde 37% (Formalin)	E	E	E	E
Fuel Oil	N	F	E	F
Petrol	N	G	E	F
Hexane	N	N	E	F
Household Detergents	G	E	G	G
Hydraulic Fluid	E	E	E	G
Hydrochloric Acid 30%	F	E	E	G
Hydrofluoric Acid 30%	G	E	E	G
Hydrogen Peroxide	G	E	E	N
Kerosene, Paraffin	N	F	E	F
Linseed Oil	N	E	E	G
Methyl Alcohol (Methanol)	E	E	E	G
Methyl Ethyl Ketone (MEK)	F	E	N	N
Methyl Formate	F	E	F	F
Mineral Oils	N	F	E	F
Naphtha	N	F	E	F
Naphthalene	N	F	G	F
Nitric Acid 20%	G	G	F	F
Nitrobenzene	N	E	F	N
Oleic Acid	F	E	E	F
Perchloroethylene	N	F	G	N
Phosphoric Acid	E	E	E	E
Photo Developer Fixer	E	E	E	E
Pine Oil	N	F	E	F
Potassium Hydroxide 50% NaOH	E	E	F	E
Poultry	F	E	E	N
Propylene Dichloride	N	N	F	N
Silicates	E	E	E	E
Sodium Hydroxide 50% NaOH	E	E	E	F
Sodium Hypochlorite	E	E	E	E
Stearic Acid	G	E	G	G
Sulphuric Acid (Conc.)	N	G	N	G
Sulphuric Acid (Dilute)	E	E	E	E
Tetrahydrofuran (THF)	F	N	N	N
Toluene (Toluol)	N	N	F	F
Trichloroethylene	N	F	F	N
Trichlorobenzene	N	F	G	F
Turpentine	N	F	E	G
Vegetable Oil	N	E	E	F
Weed Killer	E	E	E	E
Wood Preservative	N	F	E	F
Xylene	N	F	G	N
